Ticket to Ride

Patient Label

SYMPTOMS

Do you have a cough, shortness of breath, sore throat, vomiting, diarrhea, muscle ache or fever in the last 14 days?: Yes ☐ No ☐

Place a mask on patient: Yes ☐ No ☐

Registration/Scheduler Process	Clinical Process
If patient meets symptom criteria, then a mask is provided to the patient with instructions for use.	Provider determines if isolation precautions are required.

- If patient meets symptom criteria, move to a private room or separate from others (6 feet distance from others).
- If the patient is unable or unwilling to wear a mask, have them cover their cough using a tissue and clean their hands frequently. Separate patient from those without respiratory illness as soon as possible.

For additional assistance, contact Mary Kay Foster RN, Special Pathogens Program Manager @ 317-294-9008.
